What is this product?

Type

The Fund is an Exchange Traded Fund ("ETF") and is a sub-fund of Invesco Markets III plc, an open-ended investment company established under the laws of Ireland and authorised as a UCITS by the Central Bank of Ireland under EU Council Directive 2009/65/EC.

Term

The Fund has no maturity date. The Fund may be terminated unilaterally by the directors of the Company and there are circumstances in which the Fund can be terminated automatically, as further described in the prospectus.

Objectives

- The objective of the Fund is to provide investors with investment results which, before expenses, correspond to the price and yield performance of the FTSE Time-Weighted US Fallen Angel Bond Select Index (Total Return) (the "Index").
- The base currency of the Fund is USD.
- The Index measures the performance of US Dollar "fallen angels" i.e., US Dollar corporate bonds which were a.) previously rated investment-grade (higher quality) and subsequently downgraded to high-yield (lower quality); or b.) previously rated high-yield, subsequently rated investment-grade and then downgraded again to high yield. The Index is based on the FTSE Time-Weighted US Fallen Angel Bond Index which includes US Dollar-denominated bonds issued by corporations domiciled in the US or Canada.
- Investors should note that the Index is the intellectual property of the index provider. The Fund is not sponsored or endorsed by the index provider and a full disclaimer can be found in the Fund's supplement.
- The Fund is a passively managed ETF. To achieve the investment objective, the Fund will employ sampling techniques to select securities in the Index which may include but are not limited to index weighted average duration, industry sectors, country weights, liquidity and credit quality. The use of the sampling approach will result in the Fund holding a smaller number of securities than are in the underlying Index.
- The Index rebalances monthly.
- The Fund may engage in securities lending, whereby 90% of the revenues arising from securities lending will be returned to the Fund and 10% of the revenues will be retained by the securities lending agent. The Fund may be exposed to the risk of the borrower defaulting on its obligation to return the securities at the end of the loan period and of being unable to sell the collateral provided to it if the

borrower defaults.

- The Fund's shares are listed on one or more Stock Exchange(s). Investors can buy or sell shares daily through an intermediary directly or on Stock Exchange(s) on which the shares are traded. In exceptional circumstances investors will be permitted to redeem their shares directly from Invesco Markets III plc in accordance with the redemption procedures set out in the prospectus, subject to any applicable laws and relevant charges.

- The Fund may use derivative instruments for the purposes of managing risk, reducing costs, generating additional capital or income.

- This Share Class declares and distributes a dividend on a quarterly basis.

The risk indicator assumes that you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the ability for you to receive a positive return on your investment.

Be aware of currency risk. In some circumstances, you may receive payments in a different currency from your local currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance so you could lose some or all of your investment.
